

How to review and vote on a ballot

1. Log in to www.asabe.org using the login member number and password provided.

2. Once you have logged in, move to the left menu and select eForums.

3. You will only have access to those committees that you are listed on. Click on your committee name.

List Name	Threads	Posts	Members	Last Post
Seatbelt Usage and ROPS logo contest judging forum	0	0	1	
US TAG for ISO TC 23/SC 6	0	0	39	

a. To read email communications and access attachments that you received in emails, scroll the subject lines and dates.

b. To access ballots or documents, refer to the menu at the top right of the list of notices.

US TAG for ISO TC 23/SC 6

C. Selecting Library from the menu will allow you to access reference and shared information for the committee.

US TAG for ISO TC 23/SC 6

d. Select ballots to see available ballots for review. A red ballot shows an open ballot for you to access.

MS-23/19 Agricultural electronics and US TAG ISO/TC23/SC19

The screenshot shows the navigation menu with 'ballots' highlighted. Below the menu is a table titled 'Open/Available Ballots' with columns for 'Open/Available Ballots', 'Notes', and 'Close Date'. Two rows are visible, both marked as 'Not Answered'.

Open/Available Ballots	Notes	Close Date
ISO/NWIP 23285 32-75 VDC Systems for AG and EMM Not Answered	Please use the comment box below only for general comments to the committee. Any official comments to be sent along with the US position to ISO must be attached using the Comment Template - instructions located within the ballot.	2018-01-31
ISO/NWIP 23316 Tractors and machinery for agriculture and forestry - High Voltage Interface Not Answered	Please use the comment box below only for general comments to the committee. Any official comments to be sent along with the US position to ISO must be attached using the Comment Template - instructions located within the ballot.	2018-02-28

e. Review the ballot question and attachments. Follow the directions on the ballot.

Once you have reviewed the documents, filled in and attached your comment form and voted, select **submit your vote** and exit.

The screenshot shows a ballot review page. At the top, it says: 'Please use the comment box below only for general comments to the committee. Any official comments to be sent along with the US position to ISO must be attached using the Comment Template - instructions located within the ballot.'

Comment Template instructions:

1. Download the template, select "save as" to your computer before opening.
2. When entering text in the template, do not adjust column width. It complicates consolidation of comments.
3. As you review the document, identify the section, paragraph, table, and/or page to which you are referring.
4. Comments requesting a change must include text implementing the desired change. General comments such as 'Needs work', or 'Disagree' are typically ignored.
5. Save the comment template as a .doc file and upload the completed comment template as an attachment to the ballot.

Should the US approve the ISO/NWIP 23285 project as presented? 1 of 5
